St. Louis, Mo., Sept. 12.-The track today was fast, and the superb weather brought out a good attendance. Emperor Wilkes was the favorite in the first heat at \$25, with Bismont a close second choice at \$20, and Play Boy third at \$7, the field \$12. Emperor Witkes and Play Boy had a very close finish in the second heat, but the former carried off-the honors in the other two with ease. Direct broke the best local record (2:15), made by Telegram on the opening day, in the first heat of the second race, making the mile in 2:1412. Direct sold at prohibitive odds in the books, while the pooling was \$25 for Direct and \$4 for the field. He won the three heats under a puil, Telegram and Frank Dorch making the fight for second. The third race lasted till dark. When the fifth and deciding heat was run it was so dark that the horses could not be seen after they had reached the first turn. Sum-

Athletic Records Broken. NEW YORK, Sept. 12 .- The first annual games of the Metropolitan Association of the Amateur Athletic Union of the United States, at Manhattan field, to-day, were notable because of the phenomenal performance of George Gray and J. S. Mitchell. The former broke the record (his own) for putting the sixteen-pound shot, by two and a half inches, with a put of forty-six feet four inches, and Mitchell broke two records. He threw the sixteen-pound hammer one hundred and thirty feet two inches, breaking Arthur Hale's English record and the world's by eleven inches. Mitchell also threw the fifty-sixpound hammer thirty-three feet eight and a half nches. To-day's champions will go to St. Louis next month to contest in the national champion-

THE SOLID SOUTH IN PERIL.

Colonel Polk Says the Farmers' Alliance Can Carry Every State if It Wants To.

TOPEKA, Kan., Sept. 12.-Colonel Polk, national president of the Alliance, in company with Frank McGrath, the Kansas president, returned from Holton last night. President Polk this morning talked freely of the political situation. "If the Southern farmers are driven into the l'eople's party.' he said, "no power on earth can prevent them from carrrying every Southern State. But the question is, will they be driven into the third party? Four months ago I would have said that a new political party was not likely to follow. It now seems impossible to prevent it. The Alliance with us is in such a condition that it can be changed in one day into a political party. It was organized as a non-partisan institution, and has been conducted as such. We do not look for any more concessions from the Democrats than from the Republicans." "Will the Supreme Council which meets in Washington in February declare for a

third party? "That I cannot tell, but a third party seems to be inevitable, and in the South our organizations are prepared for it. The South is a unit on the sub-treasury plan. Whether the Supreme Council in February decides that a third party must be placed in the field or not, it will be a go anyhow, and it will receive thousands of votes in the South. The Democrats have it in their power to stop the movement by acceding to the St. Louis demands. Nothing short of that will avail, and if it is not done the South is lost to them.'

MUSGRAVE'S SKELETON.

How the Terre Haute Swindler Secured the Bones He Barned in the Cabin.

St. Louis, Sept. 12.-Documentary evidence damaging to R. B. Musgrave, who tried to swindle various insurance companies by leaving a skeleton to burn in a log cabin near Terre Haute, Ind., has just been furnished by Parson & Co., St. Louis, dealers in doctors' paraphernalia. It was this firm that sold the skeleton to Musgrave, and the letter constitutes the strongest evidence yet brought against him, completely substantiating Charles M. Trout's confession. On July 16 last Parson & Co. received a letter from a man in Chicago signing himself "T. B. Burnham." asking the price of an unmounted skeleton. not too old, about five feet eight inches high. After receiving an answer from Parson giving his price, this alleged Burnham wrote another letter, in which he wished to know whether the skeleton could be shipped in a box that would not attract attention. Upon receipt of an answer to this Burnham sent money and directions to have the skeleton sent to Chicago as near Aug. 17 as possible. Burnham said that the bones were for the use of his son and companion, who were studying medicine at Greencastle, Ind. The skeleton was shipped accordingly Aug. 14 by Parson & Co. The confession made by Charles M. Trout, Musgrave's fellow-conspirator, that the bones found in the burned cabin on the Wabash were those of a skeleton purchased by "T. B. Burnham" from Parson & Co., of St. Louis, was the first intimation the St. Louis firm had that it had been in nocently playing into the hands of a des-

perate swindler. One-Hundred-and-Seventeenth's Reunion. Special to the Indianapolis Journal. Unusual Shooting by Marksmen in the United States Army Tournament.

Many Bulls'-Eyes Made by Sergeants Merwin and Davis, Private James, Lieutenant O'Brien and Others-The Rifle Team.

CHICAGO, Sept. 12.-Drizzling rain was falling and the skies threatening when the marksmen in the United States army national tournament began to shoot at Fort Sheridan range to-day. It was the last day's skirmishing for the infantry men, and also their last in the army competition. Sergeant Byron Merwin, Company E, Fifteenth Regiment, stationed at Fort Sheridan, surprised every one with his phenomenal score of 148 points in his morning run. It was the best run ever made on the range, and probably wins for Merwin the James S. Kirk purse of \$50, offered to the enlisted man making the best skirmish run.

The struggle for a berth on the army rifle team was stubbornly contested by the Thirty-fifth Infantry men that strove to be one of the fortunate ten, and, it is thought, brought out better shooting than has ever been done in any previous contest. Every shot was made with care. Even "Gunsling Dave" held his breath, and took deliberate aim, but to no avail at so late a season. and the wiry man from the Department of the Platte goes home as void of honors as when he came. Among the distinguished men the fight was not so intense, it being generally conceded that Sergeant Merwin would carry off the gold medal, while the two silver ones would fall to Sergeant J. W. Davis and Corporal Sweinhart, with possibly a chance of private A. W. James forging ahead into second place. James has been in the service thirty-one years and is quite an old man, but still shoots well, and rounded up his work by finishing fourth among the distinguished riflemen. When the afternoon shooting began the

weather had cleared and the final test was soon over. Sergeant Merwin added another 134 points to his score, making his average for the day 141 and firmly establishing himself at the head of the distinguished riflemen with a total score of 570. Sergeant J. W. Davis, Company B, Sixteenth Regiment, came next, with a score of 556, and Corporal . Sweinhart, Company D, Twenty-second. third, with 546 points. Among the contestants for places on the army rifle team Sergeant F. Rose, Company M. Eighteenth Regiment, scored 136, making his average for the day 125 and his total for the four days 589, but eight points less than the highest score ever made with a rifle, which was 597, and made by Lieutenant Ramsey at Fort Bayard last year. Sergt. F. D. Powell made 112 in the afternoon, making his average for the day 119 and his total 383, winning for him the second place on the team. The run that elicited by far the most surprise was Lieutenant O'Brien's score of 130 points, which, together with his score of 125 in the forencon, made his average for the day 130. Thursday morning O'Brien ranked thirtyfirst among the army ritle team men. When he fired his last shot to-night he was seventh, and had a place on the team with a silver medal, and had so far won two gold medals viz.: a Chicago newspaper medal, offered to the officer making the highest total skirmish score and the Shirley medal to the officer making the highest single skirmish run. O'Brien's total score in the skirmishing is 242, and his score for a single run, 136. It is not expected that any of cavalry officers to shoot to-morrow will seriously endanger O'Brien's chances for

the much coveted trophies. The following will be the army rifle team for the ensuing year. The first four being awarded gold medals and the last six silver medals: Serg. F. Rose, 589 points; Serg. F. D. Powell, 583; Corp. J. O. Holen, 474; Serg. N. Ray, 569; Lieut. F. DeW. Ramsey, 568; Serg. J. W. Mayer, 564; Lieut. M. J. O'Brien, 556; Lieut. C. Gerhardt, 552; Serg. J. Quinn, 550; Corp. J. Draney, 548.

THEIR MISSION SUCCESSFUL

World's Fair Commissioners Speak Enthusiastically of Their Trip to Europe.

NEW YORK, Sept. 12 .- The national committee to Europe of the World's Columbian Exposition returned to-day on the steamship Augusta Victoria. They are Solicitorgeneral B. Butterworth, Promoter-general Moses P. Handy, F. W. Peck of Chicago, A. G. Bullock of Missouri, Judge W. Lindsay of Chicago and J. W. Sprague, secretary to the commissioners. They were accompanied by Sir Henry Wood and Mr. James Dredge, the British royal commisstoners to the fair, and Herr Wermuth, the German commissioner.

The commission has visited England. France, Germany, Belgium, Switzerland, Holland, Sweden, Norway, Denmark, Austria, Hungary and Russia. Because of the bad season of the year they did not visit the southern countries. They will recommend that another commission be sent to those countries and to the Orient. In England their reception was of the most cordial character. The Lord Mayor of London, Sir Richard Savory, and his probable successor, Alderman Evans, were most courteous and expressed their intention of visiting the exposition. The French officials intend to make their exhibit of pictures and works of art the finest ever made by France outside of Paris. The reception in Berlin was equally as happy. Germany expects to be more fully represented in Chicago than in any past exposition. From Austria and Hungary a large exhibit was assured. From Vienna alone it is expected that fif-

teen hundred exhibits will be sent. The commissioners think that every country in Europe, with the exception of Italy and some of the southern ones, will be represented. Already much rivalry as to the merits of their exhibits exists among some of the countries. They are all anxions for a large amount of space. They all want particularly to know the extent of the national backing which the fair pos-

Major Handy will spend Sunday in Philadelphia, and on Tuesday, with General Butterworth, will meet the British and foreign commissioners at Washington. There these gentlemen will call upon their ministers and be presented to the President. On Wednesday they propose leaving for Chicago, where they will remain for two weeks looking after their countries' interests, and then leave for home.

HE WAS A GAY DECEIVER.

There Can Be Little Doubt of This as He Is Reputed to Have Five Living Wives.

Special to the Indianapolis Journal. CRAWFORDSVILLE, Ind., Sept. 12.-The county clerk of Floyd county has sent several summonses to the county clerk of this county for persons to appear at New Albany, Sept. 23, as witnesses against Charles D. Fleming, who is charged with having five living wives. One of these wives is the daughter of John Elliott, of this city. About six years ago Fleming came to this city and passed himself off as a single man, when, in fact, he had a wife whom he had deserted. He was very agreeable, and finally married Miss Minnie Elliott, much against the will of her parents. They then went to Louisville, where they resided until some of his former wives arrived at that place on his trail. As soon as his last wife learned of the state of affairs, she separated from him and returned to this city. Wife No. 1 then wanted wife No. 3 to have him arrested for bigamy. but she would not, and went to Texas to reside. But wife No. 1 was bound to bring him to justice, and she kept on his trail until he was located in New Albany, where he was arrested for bigamy, and is now in jail waiting for the trial. Of the witnesses who are wanted, John Elliott, the father, will go willingly, but A. P. Reynolds, the county clerk who issued the license, is dead, and Rev. W. S. | would take great diplomacy and a great deal of Pryse, the minister who married them, money to produce him in Philadelphia.

Citizens of Philadelphia Want Uncle Sam to Inquire Into the Keystone's Methods.

PHILADELPHIA, Sept. 12.-That there may be no delay in the official investigation by the United States government into the books and methods of the Keystone Bank, the citizens' committee of fifty yesterday forwarded to Secretary of the Treasury Foster an official communication, notifying him of the unanimous passage by the committee of the following resolutions: That the Hon. Charles Foster, terretary of the United States Treasury, be requested to do all in his power towards providing means for the continuation of the investigation of the affairs of the Keystone National Bank by the experts appointed by the government. It is of vital aportance alike to the credit of the national banking system and to the cause of justice that this investigation shall be pursued to the end and directly under the auspices of the United States Lovernment. If it le true, as stated, that the experts employed by the government have been dismissed for the reason that there are now no funds available for the payment of their expenses, this committee will advance any reasonable amount required to meet such expense until such time as an appropriation can be made by Congress for their reimbursement, and that this offer be immediately tendered by letter to the Secretary of the

THE ROPES BROKE,

And Nine Men Fell Fifty Feet to the Rocky Bed of a River-Four Will Die.

SALTSBURG, Pa., Sept. 12.-A terrible accident occurred here last night at the railroad bridge. A swinging scaffold under the bridge was crowded with nine workmen, who were about quitting, when the ropes broke, precipitating the entire party into the river bed, fifty feet below. The river is very low and the men fell in a confused mass on the sharp stones, four of them being fatally injured, while the rest were more or less bruised. Those who were fatally injured are: J. C. Repergle, several ribs broken, breast crushed, badly bruised and hurt internally; S. W. Reed, terrible gash on head and fatally injured internally; W. D. Wilson, neck sprained, bruised and injured internally; George Fleming, back seriously hurt and fatally injured internally; James Cunningham badly bruised and back injured, but not fatally. A little son of foreman Joseph Artley, who was stand-ing on the scaffold had a marvelous escape. When the scaffold gave way he grasped an iron girder of the bridge, and clinging to it desperately, climbed to the bridge, and was rescued a few minutes later by his father, who was among the first to strike the river bed. Mr. Artley, sr., was badly but not seriously hurt, while the others received slight bruises. The swinging ropes were old, and dargerously weak for such a

Baptists of Westfield District,

Special to the Indianapolis Journal. Casey, Ill., Sept 12 .- The twenty-ninth annual session of the Westfield district Baptist Association, which embraces the counties of Clark, Coles and Cumberland, convened in session at the Cumberland Baptist Church, in this city, Friday morning. Elder L. W. Lanham was chosen moderator and Elder W. R. Strater secretary. The attendance is large. The first day's work was taken up mainly in appointing the various committees on foreign and home missions and publication interests. It was decided to erect a church at Marshall. To-day's work embraced committee reports and reports from the various charges, all showing a healthy year's work. This branch of the church makes no appointments for ministers, allowing the various churches to select their own pastors.

Young Horse-Thief Arrested.

Special to the Indianapolis Journal. MARSHALL, Ill., Sept. 12-Late last night a valuable iron-gray mare and new buggy were stolen from Wright's wagon-yard. The Terre Haute police were notified this morning, and in an hour they arrested the thief and property. The robber proved to be George Myers, a local tough, who was out on bail on one charge of robbery and another of assault. It is thought he has been concerned in the many mysterious burglaries that have so baffled the police in the last two years, but this is the first time he has been caught in the act, as it were. He is now in The Third Party at Cincinnati.

CINCINNATI, O., Sept. 12 .- The county convention of the People's party of Hamilton county met in this city this afternoon, and continued their session till nearly midnight. It was not a large convention, though for a newly-organized party it was quite respectable. Early in the session it was resolved not to indorse any nominee of either political party. The convention, however, indorsed the persons recommended by the Cincinnati Bar Association for judges, some of whom have been nominated by the two leading political parties. They then nominated a full

HOWL FROM VIGO COUNTY.

Corporations Will Resist the Tax Collectors, and May Make Much Trouble.

Special to the Indianapolis Journal. TERRE HAUTE, Ind., Sept. 12 .- It seems to be accepted as a matter of fact here that the railroads and some of the other corporations will resist the collection of taxes on the basis of the appraisement made by the State board. It is not understood there has been any conference between railroad officials on the subject, but the opinion is expressed by those who would most likely know the purposes of the men in control of the railroads in the State that the courts will be asked to enjoin the collection of taxes. The proceedings would be in the United States courts, and would probably follow the precedent set in Illinois in 1873, when an attempt was made to enforce a high tax law, wherein the State was eventually a heavy loser and two successive legislatures modified the act. The chief complaint here, as to other property as well as railroads, is the inequality of the appraisement. When the Terre Haute corporations were under con-sideration by the State board there seemed to be a unanimous purpose to raise the water-works company, the distillery, street-car company and banks, but only one corporation was singled out, and it for an increase of \$200,000. The State will net \$90 by the increase on the stallion Axtell by raising him to \$15,000, yet there is not another horse in the State listed above \$200, although there are dozens that, with Axtell at \$15,000, should be appraised as high as \$1,000, at least. The State board's per diem pay covering the hours devoted to Axtell would amount to nearly as much as the State will receive by the increase. The farmers of the county feel that they have been outraged, and the corporations will resist the collection of taxes, with the possible result that the State will not collect on the large appraisement and a certain delay in collecting anything.

FATE PURSUES MR. JUVENAL.

His First Wife Secured a Divorce and His Second Was Poisoned by Enemies.

KANSAS CITY, Sept. 12 .- Another chapter in the Juvenal case was written to-day when Dr. Boyle recorded at the health office the death of Mrs. J. M. Juvenal from arsenical poison. The married life of J. M. Juvenal has been a tragic and stormy one. He first married Miss Margaret Fource, of Russell, Kan. After eight years she got a divorce. Then Juvenal became engaged to Miss Millie Pfaffman, of this place. He jilted her and married Mrs. Anna Baker, a divorced woman. Soon afterwards Juvenal's house was blown up with dynamite, he and his wife barely escaping death. Miss Pfaffman was arrested for the crime, and the case against her is still pending.

Last Sunday Mr. and Mrs. Juvenal spent the day away away from home, returning Monday. They drank water from the ice cooler and were both immediately taken violently ill. They did not suspect poisoning, however, and medical assistance relieved them. Tuesday they ate some cakes made from mixed meal, and again both were taken violently ill. Investigation showed that nearly everything edible in the house had been mixed with arsenic. From the effects of her last illness Mrs. Juvenal never recovered, dying this morning at 2 o'clock. Mr. Juvenal, however, has recovered. Much mystery surrounds the case. Juvenal says he knows who the guilty persons are, but declines to give their names. Juvenal is resident manager of the Consolidated Tank-line Company, and is in comfortable circumstances.

DEVOURED BY MAN-EATERS.

Eight Pacific Ocean Islanders Dragged Down and Eaten by Relentless Sharks.

SAN FRANCISCO, Cal., Sept. 12,-The schooner General Banning arrived from Flent's island, yesterday, with a cargo of cocoanuts. Her commander, Captain Spring, reports that, while loading the cargo, his vessel was twice blown out to sea by severe storms. On each occasion about one hundred natives were on board, and they hastened ashore in canoes. The second time several canoes were capsized. and the occupants thrown into the water. The water swarmed with sharks, and many of the natives were torn limb from limb before they could be picked up by other canoes. Several islanders were dragged down. One young fellow plunged into the water with a long knife to save his father. Both, however, were torn to pieces. One young girl had almost reached a canoe when a shark seized her by the middle and dragged her down. Out of thirty-eight people who were thrown into the water eight were seized by sharks and killed and one man had a leg bitten off.

Special to the Indianapolis Journal.

LIBERTY, Ind., Sept. 12 .- A young negro was arrested here last night for house-breaking who proves to be the desperado who terrorized Oxford, O., Thursday night, assaulting several girls and women. He was sought far and near yesterday by 250 Oxford people, and had he been caught would have been lynched, in all probability. Marshal Kain, of this place, arrested him last night and lodged him in jail. He robbed a house of a watch and suit of clothes near Liberty, but may be turned over to Ohio authorities to answer for his crime at Oxford.

"You can fool all of the people some of the time. You can feel some of the people all the time. But you can't fool all the people all the time." We still assert that speculation has no proper place in life insurance, and that propositions to that effect is an attempt to defraud. A life insurance company does not produce. It does not by any process convert raw material into a finished prodnet, upon which there is a profit. How, then, can it bear the cost of collecting and disbursing tumense sums of money and yet return anything in the nature of a profit? The idea is most absurd. The individual who invests in life insurance with a view to get profits will be undecrived when the day of settlement comes. Insure by all means, but get a policy that shows upon its. face the maximum cost to you, and then insist upon annual return of your surplus. C. P. GREENE, 68 E. Market st.
